Applicant: Gary E. Jones

Serial No.: 10/047,186

Filing Date: October 25, 2001

Title: SNAP-IN WINDOW ASSEMBLY AND METHOD

Attorney Docket No. BOEI-1-1011

Group Art Unit: 3643

Examiner: Susan L. Piascik

AMENDMENT

TO THE COMMISSIONER OF PATENTS:

Please amend the application as follows:

RECEIVED
APR 02 2003
GROUP 3600

In the Specification:

At page 3, line 6, please insert this paragraph:

β1 "FIGURE 4A depicts a cutaway view of a deformable flange of an outer window frame receiving and tensionably engaging a shaped flange of an inner window frame;"

At page 4, line 24, please replace the current paragraph with this paragraph:

β2 "The inner window frame 11 is releasably attached to the outer sidewall 5 via one or more spring clips 25 that are evenly spaced around an edge of a shaped flange 27 extending along the outer top perimeter of the inner window frame 11. In a preferred embodiment the spring clips 25 are secured to the outer sidewall 5 so that the spring clips 25 securely affix the shaped flange 27 to the outer sidewall 5. The spring clips 25 provide compressive spring force to secure assembly of the inner window frame 11 to the outer sidewall 5 in a snap-together assembly. The shaped flange 27 further provides one or more sun-shade guide track lugs 22. The sun-shade guide track lugs 22 facilitate the attaching of a sun-shade track 15 to the shaped flange 27."
